

Attachment I
Special 510(K) Summary
UltraLight II Nd:YAG Laser System

K082407

This 510(K) Summary of safety and effectiveness for the UltraLight II Nd:YAG Laser System is submitted in accordance with the requirements of the SMDA 1990 and following guidance concerning the organization and content of a 510(K) summary.

Applicant: Sandstone Medical Technologies, LLC

Address: Sandstone Medical Technologies LLC
516 Scott Street
Homewood, AL 35209 USA

FEB - 3 2009

Contact Person: Mr. Mark Rohrer

Telephone: 1-205-290-8251- Phone

Preparation Date: August 20, 2008

Device Trade Name: UltraLight II Nd:YAG Laser System

Common Name: Nd:YAG Laser System

Classification Name: Instrument, Surgical, Powered, laser
79-GEX, 21 CFR 878-48

Legally Marketed Predicate Device: UltraLight II Nd:YAG Laser System
K041011

Description of the UltraLight II Nd:YAG Laser System:

The UltraLight II Nd:YAG Laser System consists of a power supply unit with cooling, a footswitch and an umbilical cord that connects to the laser, which is located in the handpiece. In standard use, the handpiece is held against the treatment area and the light pulse is delivered when the footswitch is depressed. Laser parameters and other system features are controlled from the display panel located on the front of the power supply unit.

Intended use of the UltraLight II Nd:YAG Laser System:

At the 1064 nm wavelength – dark ink tattoo removal, removal of pigmented lesions and the removal or lightening of hair.

At the 532 nm wavelength – removal of red ink tattoos, treatment of vascular lesions including facial and leg veins, telangiectasis, angiomas, hemangiomas, port wine stains and most pigmented lesions (e.g. lentigines, ephildes)

Performance Data:

None

Results of Clinical Study:

None

Conclusion:

The UltraLight II Nd:YAG laser system is substantially equivalent to other existing Nd:YAG Laser Systems in commercial distribution for use in Dermatology and Plastic Surgery.

Re: K082407

Trade/Device Name: Sandstone Medical Technologies UltraLight II Nd:YAG Laser System

Regulation Number: 21 CFR 878.4810

Regulation Name: Laser surgical instrument for use in general and plastic surgery and in dermatology

Regulatory Class: II

Product Code: GEX

Dated: January 13, 2009

Received: January 14, 2009

Dear Mr. Rohrer:

We have reviewed your Section 510(k) premarket notification of intent to market the device referenced above and have determined the device is substantially equivalent (for the indications for use stated in the enclosure) to legally marketed predicate devices marketed in interstate commerce prior to May 28, 1976, the enactment date of the Medical Device Amendments, or to devices that have been reclassified in accordance with the provisions of the Federal Food, Drug, and Cosmetic Act (Act) that do not require approval of a premarket approval application (PMA). You may, therefore, market the device, subject to the general controls provisions of the Act. The general controls provisions of the Act include requirements for annual registration, listing of devices, good manufacturing practice, labeling, and prohibitions against misbranding and adulteration.

If your device is classified (see above) into either class II (Special Controls) or class III (PMA), it may be subject to such additional controls. Existing major regulations affecting your device can be found in the Code of Federal Regulations, Title 21, Parts 800 to 898. In addition, FDA may publish further announcements concerning your device in the Federal Register.

Please be advised that FDA's issuance of a substantial equivalence determination does not mean that FDA has made a determination that your device complies with other requirements of the Act or any Federal statutes and regulations administered by other Federal agencies. You must comply with all the Act's requirements, including, but not limited to: registration and listing (21 CFR Part 807); labeling (21 CFR Part 801); good manufacturing practice requirements as set

Page 2 – Mr. Mark Rohrer

forth in the quality systems (QS) regulation (21 CFR Part 820); and if applicable, the electronic product radiation control provisions (Sections 531-542 of the Act); 21 CFR 1000-1050.

This letter will allow you to begin marketing your device as described in your Section 510(k) premarket notification. The FDA finding of substantial equivalence of your device to a legally marketed predicate device results in a classification for your device and thus, permits your device to proceed to the market.

If you desire specific advice for your device on our labeling regulation (21 CFR Part 801), please contact the Center for Devices and Radiological Health's (CDRH's) Office of Compliance at (240) 276-0115. Also, please note the regulation entitled, "Misbranding by reference to premarket notification" (21CFR Part 807.97). For questions regarding postmarket surveillance, please contact CDRH's Office of Surveillance and Biometric's (OSB's) Division of Postmarket Surveillance at (240) 276-3474. For questions regarding the reporting of device adverse events (Medical Device Reporting (MDR)), please contact the Division of Surveillance Systems at (240) 276-3464. You may obtain other general information on your responsibilities under the Act from the Division of Small Manufacturers, International and Consumer Assistance at its toll-free number (800) 638-2041 or (240) 276-3150 or at its Internet address <http://www.fda.gov/cdrh/industry/support/index.html>.

Sincerely yours,

Mark N. Melkerson
